

urbanspec M-Series External Stores

urbanspec M-Series External Stores are full height, secure storage lockers with individual controlled access to each compartment. The linear design format of M-Series is ideally suited to residential schemes, optimising available footprint for multi-purpose, secure outdoor storage, including in narrow spaces close to buildings.

Designed for ease of specification, available in three unit depths and two compartment widths from standard, the class leading choice of panel types, finishes, access systems and roof options, enable M-Series products to add a welcome architectural impact to a scheme, in addition to fulfilling a practical storage function.

Our integrated design and engineering model extends to green roof systems, an integral means for securing Biodiversity Net Gain credentials

on new developments and underscoring a commitment to championing the environment and its fragile ecosystems.

Prevention of theft or damage to contents is central to urbanspec M-Series product design with specifications available from basic level to high security. urbanspec M-Series External Stores can be factory ordered to Secure By Design specification, certified to Sold Secure S314 Silver Specification for Security Cabinets.

urbanspec M-Series structures are designed and manufactured in the UK under BS EN 9001:2015, BS EN 9001:2015 and BS EN 1090 accredited processes. Hot dip galvanised coating is standard with colour powder coat options.
